UNITED STATES AIR FORCE THE INSPECTOR GENERAL OFFICE OF SPECIAL INVESTIGATIONS REPORT OF INVESTIGATION	FILE NO. AFHQ OSI 24-195	DATE 21 August 1950
TITLE Unconventional Aircraft Sighted by Mrs. James ALLEN Flat Rock, Nfld. at approxi- mately 2200 hours 12 Aug '50.	REPORT MADE BY S/A Ralph O. Robillard	
CHARACTER Special Inquiry--Unconventional Aircraft	REPORT MADE AT Pepperrell AFB, Newfoundland	
REFERENCE AFCSI Letter 106.	PERIOD 15 - 21 August 1950	
SYNOPSIS Mrs. James ALLEN, Flat Rock, Newfoundland stated that at 2215 hours, ap- proximately, 12 August 1950 she sighted some manner of unconventional aircraft (see attached drawing) flying in a southerly direction over the vicinity of Red Rock (a point near Flat Rock). <u>DETAILS:</u> Mrs. James ALLEN, Flat Rock, Newfoundland offers the following statement: On 12 August '50, between 2215 and 2220 hours, I was out behind my house. I heard a fairly loud hiss, and I looked out toward Red Head (North, north east) and I saw an object flying toward Torbay Airport (Southerly direction). It appeared to be about 110 feet up (estimated by ground distance). It was about 4 1/2 feet long and about a foot in diameter. There was a reddish glow along the front and the rest was darkish except for a red flame behind it about as long as itself. It made no reflection on the clouds. Sky was clear and bright. It moved on toward Torbay Airport and out of sight. It was going very fast, I could not say the speed. Torbay Traffic was checked and it was discovered that only one C-54 air- craft was in the air during the evening of 12 August 1950 at 2115 hours and again at approximately 2140 hours. No jet aircraft have been recorded in the vicinity during the month of August, to date.	OFFICE OF ORIGIN APO 882, c/o PW, New York, New York
