Dear **Section 40**

Thank you for your letter dated 26 March 2004.

Please find attached a list as requested of the reports for 2003. As you can see there was no report made in the Dover area of Kent. I also enclose the report from Lowestoft in Suffolk in 2004.

I hope this will be of help.

Yours sincerely

26 March 2004.

Dear Section 40

Thank you for your letter of 15 March, many thanks for pointing out the error on my part, yes you were right I had made a mistake, I should have been requesting the listing of sightings to your department for the year of 2003.

Also the report from the Dover area of Kent should of course have been July 2003, and would be most interested in receiving a copy of that report if possible?

Please accept my sincere apologies for not realizing this error, and that hopefully I have not been wasting your time. I also thank you for the reports that you have sent me so far for this current year (2004).

I was interested to see that you had a report from Lowestoft in Suffolk for the 1 March 2004, and wonder if it would be possible if I could also have a copy of that report? ✓

Many thanks for your cooperation with regard to this matter.

Yours Sincerely, Section 40

Dear **Section 40**

I am writing with regard to your enquiry about whether, since September 2001, Police Forces have been instructed to send out patrol vehicles to investigate sightings of unidentified craft reported to them by members of the public and, if so, whether these procedures were instigated by the MOD or the Home Office. I apologise for the length of time it has taken to send you a substantive reply.

I can confirm that the Ministry of Defence has not issued any specific instructions to the Police regarding UFO sightings reported to them. From time to time, Police Stations forward to us, UFO reports that they have received, but these procedures have not changed in recent years. The Association of Chief Police Officers are responsible for developing Police policies on behalf of the Service as a whole and if you wished to pursue your enquiries concerning internal Police procedures you may wish to contact them at the following address.

Dear

Section 40

Thank you for your letter dated 8 September. Please find enclosed, copies of the reports that you requested, with the informant's personal details deleted in order to protect their confidentiality. The sightings were all made by members of the public and the details of the channels through which they were notified to us are shown on the reports. I hope this is helpful.

Yours sincerely

RE: U.F.O.'s Lots above Folkestone Harbour on morning of 28th January 01

Please tell me what these UFO Air Jets were doing Zooming about at hight not known, under cloud base. They appeared to crash i.e. touch in contact and make zooming noises across the skyline. They were watched by others and me for a short while i.e. 1.37 hours.

Tell me were these Air Jets Alien ships visiting us, or were they a projection a visual audio view beamed from a land base sight or was it MIR (mirror erect) or Apollo teleporting a visual coil vile.

On to next UFO sighting

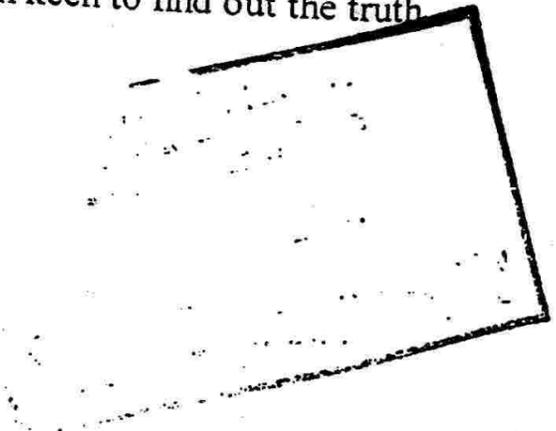

Before the above I did walk into Folkestone town centre at about 9.34am I did witness a silver voile spin top bobbing at height 300 foot it appeared to be yo-yoing in sky about size of a football. I did witness this object for a good ten minutes at this point I went to local café for breakfast. After breakfast I came out of café and the object had gone. Was this object a photomb torpedo core plug?

I await your replay

On this day I did go to hospital as a patient admitted for own safety. Two months later on evening of 4th April 2001 later, I did witness 3 more Fobs they bobbed about above Ashford Tesco food store Area. They were low in sky about 200 feet up they took on the appearance of three silver tinsel stars. I believe these UFO to be the three wise men in spirit form checking that I was safe in my bed after my rebirth.

Please write back because I believe the above to an interest to all.

Please note I have always been interested in UFO's and I am keen to find out the truth about these sightings.

Monday, 08 September 2003

Dear Section 40

Thank you for your letter dated 4 September. With regard to the listing that you sent me of reported sightings for the years 2001 and 2002, would it be possible for you to forward me copies of the following reports?

28/01/01 Folkestone, Kent
04/04/01 Folkestone, Kent
04/07/01 07:00 Kent
25/07/01 14:10 Folkestone, Kent
07/09/01 19:45 Broadstairs, Kent

Can you please tell me which of those above listed are reports from the general public via the Police? And which are via CAA facilities such as local airports, etc?

Thanking you in advance for your time and attention regarding this matter, and I shall look forward to hearing from you regarding my question set out to you in my letter of 25 July re police forces being tasked with sending out patrols to investigate reports.

Yours Sincerely

Dear

Section 40

Thank you for your letter dated 25 July; I am very sorry for the delay in responding. As requested, please find attached a list of all 'UFO' sightings that were reported to the Ministry of Defence during 2001 & 2002.

You also asked whether all police forces in the UK are now tasked with sending out a patrol to investigate sightings of unidentified craft reported to them by members of the public. We are currently awaiting information from another Department concerning this and promise to get back to you as soon as we can.

Yours sincerely

DAS-LA OpsPol1

From: DAS-LA OpsPol1
Sent: 31 July 2003 12:41
To: 'Info@acpo.police.uk'
Subject: Instructions to Police Forces
Signed By: das-laopspol1@defence.mod.uk
Security Label: Signed

This Department is the focal point within the Ministry of Defence for correspondence with the public concerning unidentified flying objects and I would be grateful for any advice you may be able to provide on the following.

One of our correspondents has asked us to confirm whether all Police Forces in the UK are now tasked with sending out a patrol to investigate sightings of unidentified craft reported to them by members of the public. He said he believed that Devon and Cornwall Police do this and that they have to report the sightings to a central telephone number. He says this procedure has been in force since September 2001 and asks if these orders originated in the MOD or the Home Office.

I have contacted Devon and Cornwall Police who say they have not had any specific directive, but of course, they would pursue anything reported to them that they thought needed further investigation. Because of the possible link to 11th September 2001 I have also spoken to the Anti-terrorist Unit at New Scotland Yard who also know of no such order.

Before I write to this individual, I would be grateful if you could confirm whether you are aware of any instructions similar to this sent out to Police Forces.

25 July, 2003.

Dear Sir/Madam,

I am writing to you to request if it would be possible for you to forward me a listing of all reports of UFO sightings, that were reported to your Department during the years 2002? ~~+~~ 2001?

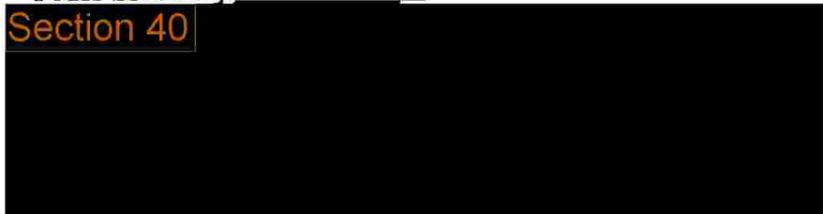

Could you also confirm to me whether all Police Forces in the UK are now tasked with sending out a patrol to investigate sightings of unidentified craft reported to them by members of the public?

I know that Devon and Cornwall Police do, and that they have to report the sightings to a central telephone number. We have been told that this procedure has been in force since September 2001. If these facts are true, can you tell me if they are orders that have originated from the Ministry of Defence, or the Home Office?

Many thanks for your cooperation with regard to this matter.

Yours Sincerely, Section 40

Dear **Section 40**

I am writing concerning the message you left on the DAS (Ops & Pol) 1 answerphone on 30 July. You enquired whether we had received any sighting reports of 'unidentified flying objects' from Tunbridge in Kent for 13 June. I have looked back through our files and can confirm that we received no reports of 'UFO' sightings for that date from anywhere in the United Kingdom.

Yours sincerely

Message

Section 40 wanted to know if we had received any reports for Thursday 13 June 2002 from Tunbridge in Kent. He had received a report of a 'UFO' with a colour photo showing a disc shaped object with a tower on top of it, on which appeared to be some kind of arial device. Section 40 explained that there had twice been sightings of a similar object one in America and one from a French pilot, which had also been photographs. He added that the photos were verified as genuine by USAF staff and by the 'Condon committee' in the US.

Subject: RE: UFO UpDate: NIDS 'Official Organization' For FAA UFO Reports

Dear **Section 40**

I received your email of 30 June (21:47). While the tone of this piece denies it any consideration of a reply, you will not be surprised to know that we do not share your view on the 'conspiracy theory' that is so clearly implied. Moreover, the safety of all aviation activity in the UK is at the heart of our role within the CAA and there are well understood procedures in place that gather evidence of incidents and events that impact on safety. These occurrences are subsequently analysed to establish appropriate safety management actions, to the extent that the data allows. Unusual airborne sightings would be embraced by these procedures.

Turning to your second email of 1 July 2001. You make mention of an airborne event that occurred in the Newcastle area on 7 July 2000. I can tell you that there was no report filed within our UK Mandatory Occurrence Reporting Scheme (MOR) that would correlate with that claim. This MOR scheme requires members of the aviation community to report a wide range of incidents or events that may have implications for the safety of air operations. Thus pilots do know that they have a duty to report flight safety occurrences - as do engineers, air traffic controllers, airport operators and manufacturers. Indeed, it is CAA policy to encourage voluntary reporting across the whole spectrum of the industry.

You will understand that without reports which provide sufficient data for subsequent identification and tracing action there will be instances where the review of some occurrences will be inconclusive. Nevertheless, when instances of unusual sightings are reported under the CAA procedures they are also passed to the Ministry of Defence for security review. With effect from 31 July 2001 the temporary address of the appropriate MOD department is as listed below.

I hope that this note explains the CAA position in respect of unexplained airborne events and that it clearly demonstrates the open reporting and investigation that is a principal tenet under which the aviation industry conducts its business and promotes safety.

 Subject: Fw: UFO UpDate: NIDS 'Official Organization' For FAA UFO Reports

Dear Sir,

Why can we not have this kind of cooperation in this Country. If it's OK for the United States, then why not here in the UK?

Why deny it?

We have in our possession video footage from July 7, 2000 of a Civilian passenger plane flying over Walstanton, Newcastle, involved in possible near-miss with white coloured sphere shaped object which passes in front of a/c starboard wing.

Can we have cooperation for the sake of safety. The Ministry of Defence say it's of no Defence significance, but where a/c are concerned it is a safety issue. Let pilots talk, and lets see guidelines issued so that pilots know what to do in such eventualities. Not all UFO related near misses are UFO's. Some are military as well.

DATE: Saturday, 30 June, 2001.

UFOs and aircraft near misses:- No Defence significance(?), definitely a safety issue!

This week I recieved a telephone call from a witness who observed 60 to 80 bright lighted objects crossing the sky slowly in a North easterly direction, on Tuesday, 19 June (2001), at approximately 18:00 hours (BST).

Some of the objects were flying in clusters, others were in groups of three or five, and some were even on there own. One looked like it was pulsating red in colour, as if it was getting bigger then shrinking in size.

Another of the objects seemed to suddenly go up verticaly, whilst another appeared to take on the shape of a jellyfish (this kind of object has been seen on more than one occassion here in Kent, UK).

And where did this event occur? Right over the city of London! Amongst aircafft coming in and taking off from Heathrow airport etc...

For god sake how many more times is this going to happen before some-one gets OFF their bloody backsides and do something!

More and more we are hearing of civilian passenger planes having near misses with UFOs not just in this country but worldwide.

I know, of at least two incidents here in the County of Kent. The most well known one occured on 21 April, 1991, when Alitalia Flight AZ 284 was flying from Milan to London Heathrow. At approximately 20:00 hrs, whilst over the Lydd Army Ranges, they had a near miss with what they described as a brown coloured missile looking object. London ATC even monitored the object on radar.

Within days our local MP (former Home Secretary), Michael Howard, the C.A.A. and the Ministry of Defence all stated that the object was a UFO! Now there's a first.

The MOD stating a UFO was in UK airspace.

Bull shit! It was not a UFO as they would like to have us believe, but possibly a Target drone or UAV. People here in Kent now it, and we believe we know who was responsible. How ever as we do not have concrete proof we can't name them due to the fact we could get sued.

The other incident occurred on 16 September, 1996, when **Section 40** (former coordinator of UFOMEK), sighted and videod a white sphere like object over Wingham, Kent.

The object was at the same height as passenger jets flying over, and was even filmed going through an aircraft vapour trail.

Vapour trails are normally formed at a height of at least 22,500 feet. One part of the sighting he didn't manage to capture on video was when the mystery object flew straight in front on a passenger plane, causing the crew to take avoiding action.

Also I recieved another telephone call this wek from a witness who was videoing aircarft where he lives at Stoke on Trent. When suddenly a white object comes into view, and ascends upto the height of one of the aircraft, and seems to just miss the aircraft. This incident occurred back in July, 2000, and the reason he has only just approached anyone regarding the footage, is because he didn't know who to report it to, and who he could trust with the footage.

I hope to be viewing this footage shortly, and if it does indeed show a UFO in a near miss with an aircarft, then this could be an important piece of footage.

So what is the official line on all this? Well when objects were sighted and filmed over London last year, and reported to the C.A.A. they responded with a deafening quiteness!

And if you report any sightings to the Ministry of Defence, they respond with "NO DEFENCE SIGNIFICANCE!" Well maybe not, but it is I maintain a BLOODY SAFETY ISSUE!

So when are the authorities going to get off their backsides and look into it, and stop pissing around in the wind. For Christ sakes lives could be at risk here!

Even if the latest sighting over London on the 19 June, was balloons, they were flying near aircraft, and could have caused an accident.

According to a recent report the C.A.A. state that there at least 30 reports that they know of involving aircraft and UFO sightings. But how many of them were near misses. Even one is to many in my book.

So I urge everyone reading this, to contact you local MP, and demand answers. I believe that if enough of us put pressure on our MPs, bombard the MOD with telephone calls and letters, as well as newspapers, etc. Just perhaps someone may start listening.

If you feel the same way I do, please do let me know. Maybe you don't agree with my comments, again let me know. And if any pilots or any other aircrew should be reading this who know of any incidents, don't you think it's time you spoke out, for the safety of your passengers. Please contact me if you wish.

Has there been such a 'report'?

Finally please accept my sincere apologies, for the strong tone of this article. If I have offended anyone with my outspoken comments, then I apologise.

Dear **Section 40**

Thank you for your letter dated 18 May 2001.

Firstly, please find attached copies of the reports you requested, with the informants' details deleted to protect their confidentiality. With regard to the report from the Preston area on 14 January 2001, the original was not received by this office; I have however, obtained a copy from Skelmersdale police which I also attach for your information.

You mentioned in your letter an incident thought to have occurred on the Isle of Man on 14 January at 16:30 hours, involving an object which looked something like a hang glider or micro-light aircraft. After making further enquiries, I can confirm that a Search and Rescue helicopter from RAF Valley received a call out at 13:30 on 14 January to search for a crashed micro-light on the Isle of Man. A comprehensive search of the area was conducted, but nothing was found and the helicopter returned to RAF Valley.

Finally, you asked if such incidents are reported to the CAA or any such organisation and who would authorise the launch of a Search and Rescue helicopter. All inland aeronautical crashes involving civil aircraft are investigated by the Air Accident Investigation Branch of the Department of Transport, Local Government and the Regions (formerly the Department of the Environment, Transport and Regions). Search and Rescue helicopters are launched following a call from the police and the MOD is informed as a matter of routine.

I hope this is helpful.

Yours sincerely

18 May, 2001.

Dear Section 40

Thank you for your reply of 16 May, in response to my letter to you dated 25 April. I am now writing to ask if it would be possible for you to please forward to me copies of the following reports that are on the list that you sent me?

- They are as follows: 28/05/00 at Sittingbourne, Kent.
- 29/05/00 at Gravesend, Kent.
- 06/08/00 at Rainham, Kent
- 27/09/00 at Ramsgate, Kent
- 01/11/00 at Dartford, Kent.
- 24/11/00 at Rochester, Kent.

MINISTRY OF DEFENCE
DAS 4
22 MAY 2001
FILE

Section 40 would always send me copies of reports with the witnesses details deleted, and in return I would pass on details of sightings that we here at UFOMEK had investigated, that your Department were unaware of, for your files.

With regard to my question in my previous letter concerning Sunday, January 14th, 2001. You say that your department have no reports from that day. We have been informed of a sighting that occurred on that day, in the Preston area of Lancashire at around 20:05 hours. The witnesses a Section 40 and his mother, reported the incident to the police at Skelmersdale, Lancashire. The call number was logged as 424SQ, and that were informed by the police that their report would be forwarded onto the Ministry of Defence. A day or two later Section 40 contacted the police at Skelmersdale to see if any information had become available, and they told him that the report had definitely been forwarded to the MOD, and had been tagged onto the report from the Isle of Man of earlier that day.

Can you please re-check your files, or make enquiries with any other department regarding this?

16th Jan 2001

①

With regard to the Isle of Man incident. This occurred at around 16:30 hours. Witnesses observed what they thought was an object which looked something like the shape of a hang glider/micro-light aircraft, hit the radio communications mast on top of Mount Snaefell, IOM. Whatever this object was it had damaged the radio aerials belonging to the emergency services on the island, and witnesses reported seeing debris and thick black smoke falling down to the ground. The smoke was described as being thick and black, enough to set off smoke alarms in a nearby building. The Police, Civil Defence, Coastguard and Mountain Rescue initiated a search of the area for a possible downed aircraft.

Nothing was apparently found. An RAF Air Sea Rescue helicopter from RAF Valley was also called into help in the search.

Firstly, would such an incident be required to be reported to the Civil Aviation Authority, or any other such organisation of authority?

Secondly, who would authorise the launch of an Air Sea Rescue helicopter from RAF Valley, in Wales, and would it be reported to the MOD, as it involved a military helicopter launch?

We believe we know what it was that collided with the radio communications mast on Snaefell Mountain, and we certainly do not believe it was a UFO as reported in the normal sense.

We have also been informed that all the airports, along the Irish, and British western mainland were put on alert with regard to this incident. If your department, can not help with regard to this incident, can you please tell me which department I should contact, who may have information regarding the Isle of Man incident?

Many thanks for your cooperation with regard to this matter.

Yours Sincerely,

Section 40

Section 40

I can confirm that a search & rescue helicopter ^{from RAF Valley} received a call out at 12.30Z (13.30L) on 14th January to search for a crashed micro-light on the Isle of Man. A comprehensive search was conducted, but nothing was found and the helicopter returned to base.

Inland aeronautical ~~crashes~~ ^{involving} civil aircraft are investigated by the Air Accident Investigation Branch of the Department of Transport, Local Government and the Regions.

The Police would call off the SAR. The MOD are routinely informed of all SAR incidents.

Dear

Section 40

Thank you for your letter dated 25 April 201. As requested, please find attached a list of all sighting reports of "unidentified flying objects" reported to the Ministry of Defence during the year 2000. I should however emphasise that these figures relate to reported sightings of unidentifiable aerial activity; the vast majority of which will have mundane explanations such as aircraft lights, weather balloons etc...

With regard to your second question, I can confirm that we have not received any sighting reports for 14 January 2001 from the Isle of Man or from anywhere in the United Kingdom.

I hope this is helpful.

Yours sincerely

25 April, 2001.

Dear Sir/Madam,

I am writing to you to request if it would be possible for you to forward me a listing of all reports of UFO sightings, that were reported to your Department during the year 2000?

Also could you please tell me if your department received any reports from the Isle of Man, for Sunday, 14 January, 2001, and from any other locations within the United Kingdom on that day?

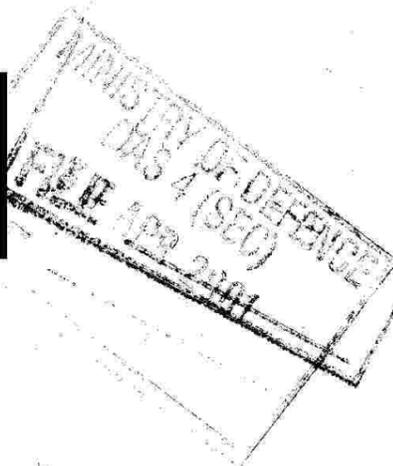

If your department did receive any reports from that date in question, would it be possible for me to receive copies of those reports?

Many thanks for your cooperation with regard to this matter.

Yours Sincerely

Date
 3 April 2000

Dear **Section 40**

Thank you for your letter dated 9 March 2000. As requested, I attach copies of the following reports with the informants' details blanked out in order to protect their confidentiality:

April 2, 1999 at Chatham, Kent
 August 13, 1999 at Tenterden, Kent
 September 12, 1999 at Sellindge, Kent
 November 15, 1999 at Beckenham, Kent

With regard to your question about police procedures when dealing with alleged "UFO" sightings, I cannot comment on specific procedures at individual police stations, but it is normally the case that the police will pass the report to a local RAF Station (where there is one locally) or to the Aeronautical Information Service (Military) at RAF West Drayton. These organisations in turn pass the details to ourselves. As I said in my previous letter, we have had no reports of any unusual aerial activity in the Kent or Essex areas for Sunday August 1, 1999 and are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised military aircraft.

With regard to your offer to provide us with video footage of alleged 'UFO' sightings, as you will be aware from previous correspondence with my predecessor **Section 40** the UK Ministry of Defence has only a very limited interest in these matters. Therefore, I am afraid it has no use for the sort of information you are keen to provide.

Yours sincerely
Section 40

13 AUGUST 1999

Stated as she was watching the sun set from her balcony at the rear of her block of flats she saw what she described as a large, brilliant light in the sky which was stationery. She stated it was not an aircraft and it was much bigger than a normal star. She watched it for a while then saw it move off fairly quickly and disappear.

She stated that she also saw the same sort of light at around the same time last year but did not inform anyone about it.

I trust this is all the information you require. The informant can be contacted on the above number.

Many thanks.

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1.	Date and time of sighting. (Duration of sighting.)	15/11/99 at 15:00
2.	Description of object. (No of objects, size, shape, colour, brightness, noise.)	"Bright silver disk, a very circular object with sun shining off of it"
3.	Exact position of observer. Geographical location. (Indoors/outdoors, stationary/moving.)	Beckenham, Kent Indoors
4.	How object was observed. (Naked eye, binoculars, other optical device, camera or camcorder.)	
5.	Direction in which object was first seen. (A landmark may be more helpful than a roughly estimated bearing.)	
6.	Approximate distance.	
7.	Movements and speed. (side to side, up or down, constant, moving fast, slow)	Moving very quickly above houses
8.	Weather conditions during observation. (cloudy, haze, mist, clear)	
9.	To whom reported. (Police, military, press etc)	Sec (AS) 2a1 answerphone

11.	Other witnesses.	
12.	Remarks.	
13.	Date and time of receipt.	Message received 15/11/99 at 15:16

Secretariat (air Staff)2a,
Room 8245,
MINISTRY OF DEFENCE,
Main Building ,
Whithall,
London,
SW1A 2HB.

9 March, 2000.

Dear Section 40

Thankyou for your reply of 7 March, in response to my letter to you dated 22 February. I am now writing to ask if it would be possible for you to please forward to me copies of the following reports that are on the list that you sent me?

They are as follows: April 2nd, 1999 at Chatham, Kent.
August 13, 1999 at Tenterden, Kent.
September 12, 1999 at Sellindge, Kent
November 15,1999 at Beckenham, Kent.

Section 40 would allways send me copies of reports with the witnesses details deleted, and in return I would pass on details of sightings that we here at UFOMEK had investigated, that your Department were unaware of, for your files.

With regard to my question in my previous letter concerning Sunday, August 1, 1999. As i told you the incident was reported by two independent witnesses to both Dover Police, and Canterbury police. Can you please tell me whether or not the police are duty bound to pass on details regarding sightings, to the Royal Air Force, or your Department, especially if they are of the nature of this particular sighting which involved the observation of many objects?

Also would your Department be interested in a copy of the video footage taken by one of the many witnesses of the objects sighted over Kent on Sunday, August 1, 1999? I also have in my possession a copy of CCTV footage of an incident that occurred back on 18 July, 1998 involving the sighting of one of the so-called Flying Triangle shaped objects, which was observed in North Kent. Again would your Department be interested in a copy of the footage? If so, I would gladly forward you copies, which maybe someone in the MOD might try some analysis on. I would be most interested in hearing any constructive comments with regard to the footage.

Many thanks for your cooperation with regard to this matter.

Yours Sincerely,

Section 40

Dear **Section 40**

Thank you for your letter dated 22 February. I attach, as requested, a list of all sightings reports of 'unidentified flying objects' reported to the Ministry of Defence during 1999, plus, for your information, a map of their geographical spread throughout the United Kingdom.

As you will see from the attached list, we received no reports of 'UFO' sightings for 1 August 1999 from anywhere in the Kent or Essex areas, only one from Rochdale, Lancashire.

Yours sincerely

22 February, 2000.

Dear Section 40

I am writing to you to request if it would be possible for you to forward me a listing of all reports of UFO sightings, that were reported to your Department during the year 1999?

Also could you please tell me if you received any reports from the Kent or Essex areas for the night of Sunday, August 1, 1999? There was an incident that occurred on this date at 22:40 hours in the Dover/Aylesham/Canterbury area, of which was reported to Kent County Constabulary at Dover and Canterbury, but when I spoke to them at the time they emphatically denied it, despite the witnesses insistence that they had reported the incident to them at the time of the sighting. And one family who witnessed the event, strongly claim that they not only reported the incident to the police at Dover, but also to the Ministry of Defence. When I spoke to someone at the MOD, they also denied knowing anything about this particular sighting. The sighting was witnessed by well over 100 witnesses, and was even video taped by a witness in Aylesham, near Dover in Kent. The sighting consisted of well over 100 - 200 objects, and at one stage during the incident two civil passenger planes flew directly underneath the objects.

We know from our enquiries with the Civil Aviation Authority that the lowest flight path height for outbound civil air traffic is 7000 feet. So what ever these objects were they were well above that height heading in a Northerly direction.

Many thanks for your cooperation with regard to this matter.

Yours Sincerely,

Section 40

26 May, 1999

Dear Section 40

Back in April, I sent you a letter dated the 26th, setting out various questions with regard to correspondence that you had sent my colleague Section 40 on the 21 April.

In my letter to you I asked whether you could forward me further details on certain sightings that appeared on a list that you had sent Section 40. The reports that I was particularly interested in were the following:-

09/03/98 Maidstone, Kent.
22/07/98 Hythe, Kent.
10/09/98 Erith, Kent.
12/10/98 Gravesend, Kent.
06/11/98 Deal, Kent.
04/01/99 Folkestone, Kent.

I asked if it would be possible for you to send me copies of those reports, such as the description of what was seen, and the time of the observations?
If you could help me with this request I would be most grateful.

Also in your letter to Section 40 you acknowledge that DI55 receives copies of reports regarding Unidentified Aerial Phenomena, among other departments. Is it fair to say that two of the other departments that receive such reports are DI61, and DSTI? Can you confirm or deny this as being the case.

I thank you for your time and attention regarding this matter, and await your reply with interest.

Yours Sincerely

26 April, 1999.

Dear Section 40 You recently sent my colleague Section 40 a list of reported aerial phenomena, from January, 1998 up until April of this year, which were reported to your department by the Police and members of the public.

There are several reports on that list, of which we are interested in, and would like to know if it is possible for us to receive some brief details regarding those reports, such as time and description of what was observed? The dates and locations of those reports are as follows:-

09/03/98	Maidstone, Kent.
22/07/98	Hythe, Kent.
10/09/98	Erith, Kent.
12/10/98	Gravesend, Kent.
06/11/98	Deal, Kent.
04/01/99	Folkestone, Kent.

If you could help us with this request we would be most grateful. We are also interested to know why after all these years of denial that Air Staff, is now acknowledging the existence of DI55, and that they receive reports of Unidentified Aerial Phenomena? Could your department also confirm that DI61, and DSTI also receive similar reports?

Thanking you in advance for your cooperation in this matter, and I await your reply with interest.

Yours Sincerely, Section 40

Dear

Section 40

Thank you for your letter of 26 February regarding an alleged incident near the former Home Secretary's house on 8 March 1997.

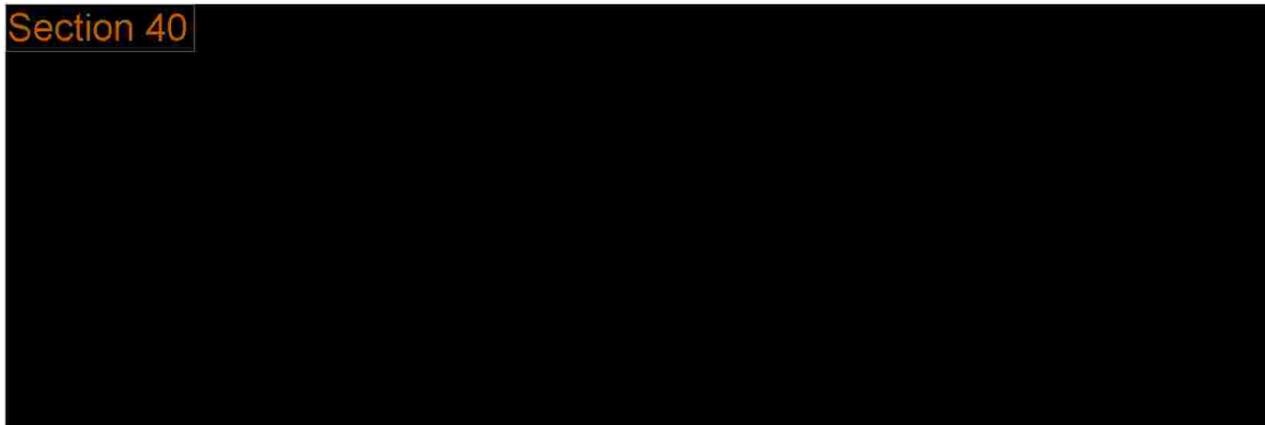

In previous correspondence, it was stated that Sec(AS)2 have no additional information regarding this sighting. You then pointed out that **Section 40** had formerly referred to reports forwarded to this office from the Home Office and the Police. I assumed you were aware of these reports as they were originally written by you and addressed to the Home Office and Police. They were then forwarded to Sec(AS) for reply. I can confirm that Sec(AS)2 holds all the papers you sent directly to us regarding the incident, including the UFOMEK report form and UFOMEK witness statement.

I have enclosed newspaper cuttings regarding the alleged incident over the former Home Secretary's house on 8 March 1997.

Yours sincerely,

Section 40

26th February, 1999.

Dear Section 40

Thank you for your letter of 22 February, regarding my enquiry on the UFO sightings of 8 March, 1997.

Therefore I am writing to you under the terms of the Code of Practice on Access to Government information.

In your letter, you state that the only information that your department has with regard to a sighting on that date is from a member of the public, who drew Air Staff 2, attention to a report in a Kent newspaper. I would very much like to know what newspaper that was, and the date of the article, or the date when this member of the public contacted your department?

How you can say that your department has no other information, with regard to other sightings on the 8 March, 1997, seems impossible to believe, especially when Section 40 wrote to myself on the 3 July, 1997, to acknowledge receipt of two reports from the Home Office, and Chief Inspector Abbott, of Kent County Constabulary.

The reports we sent to the Home Office, and Kent Police, included a completed Section 40 report form, signed by the witness, and a complete witness statement on Section 40 headed paper, also signed and dated by the witness. I also believe that I sent another copy of the report to Section 40 along with a copy of a Field Investigation Report Form. Therefore if you do not have these letters of correspondence, and supporting documents/papers, then which department has them?

I know from the Home Office that the report I sent them on 5 June, 1997, was passed onto your department on the 9 June, 1997. How you can claim that you only have details of one sighting for the date of 8 March, 1997, from a newspaper article, is absolutely unbelievable!

When the Press contacted your department in January, 1998, they were told that they knew nothing about this incident. And when another journalist contacted Air Staff 2, back in mid-July, 1997, he was sent a fax telling him the same thing. Can you please explain to me why your department still insist on denying all knowledge of the other incidents on the 8 March, 1997, when I they have received details of these as acknowledged by Section 40 in her letter of 3 July, 1997, to me (copy enclosed).

Thanking you for your time and attention regarding this matter, and I await your reply with interest.

Yours Sincerely

 Date
 3 July 1997

Dear **Section 40**

1. Thank you for your recent letter addressed to the Secretary of State for the Home Department concerning an alleged "UFO sighting" near the residence of the former Home Secretary, Michael Howard. Your letter and the supporting papers have been passed to the Ministry of Defence and I have been asked to reply. You also wrote to the Chief Inspector of the Operations Centre, Kent County Constabulary, Maidstone. Chief Inspector **Section 40** has also forwarded his correspondence to me.

2. The Ministry of Defence examines any reports of "unidentified flying objects" it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the UK Air Defence Region might have been compromised by hostile or unauthorized foreign military activity. The integrity of the United Kingdom's airspace in peacetime is maintained through continuous policing of the UK Air Defence Region by the Royal Air Force which remains vigilant for any potential military threat. Unless there is evidence of such a threat, and to date no "unidentified flying object" sighting has revealed such evidence, no attempt is made to identify the precise nature of each reported incident. We believe that down to earth explanations could be found for these reports, such as aircraft lights or natural phenomena, if resources were diverted for this purpose. It would, however, be an inappropriate use of defence resources to provide this kind of aerial identification service.

3. The MOD has no expertise or role in respect of "UFO/flying saucer" matters or to the question of the existence or otherwise of extraterrestrial lifeforms, about which it remains open-minded. I should emphasize that to date the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

4. MOD Air Defence staff have confirmed that there is no evidence to suggest an unauthorized incursion of the UK Air Defence Region on 8 March. The Home Office has confirmed that no security incident occurred in the home of the former Home Secretary on this date as you allege in your letter.

5. I hope this explains the position.

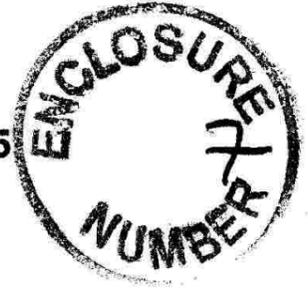

Yours sincerely,

Section 40

Date
 22 February 1999

Dear

Section 40

Thank you for your letter of 10 February addressed to **Section 40** I have been asked to reply.

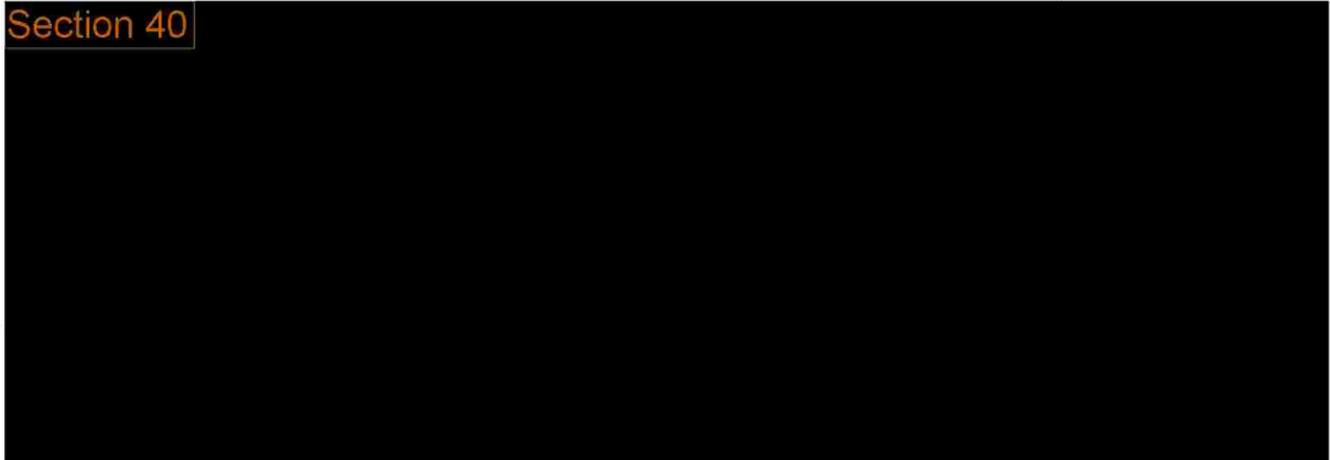

Having seen a list of reported 'UFO' sightings for 1997, you asked for a copy of a 'UFO' report from Hythe, Kent dated 8 March 1997. The inclusion of this date in the MOD list of alleged sightings during 1997 reflected the fact that a member of the public drew our attention to a report in a Kent newspaper about an alleged sighting in the Hythe area on that date. The MOD did not receive any reported sightings direct about what was alleged to have occurred although we did receive correspondence seeking more information. As you know, the MOD does not investigate alleged sightings unless there is evidence of a potential threat to the United Kingdom from an external military source. On this occasion there was no substantive evidence and no further action was taken.

You have also asked for copies of any reports forwarded to the MOD by the civil police. Any reports of this nature would be provided in confidence and would not be available for public scrutiny for 30 years. This is due to the Public Records Act of 1958 and 1967. This Act of Parliament states that official files generally remain closed from public viewing for 30 years after the last action has been taken. It was generally the case that before 1967 all 'UFO' files were destroyed after five years, as there was insufficient public interest in the subject to merit their permanent retention. However since 1967, following an increase in public interest in this subject 'UFO' report files are now routinely preserved. Any files from the 1950s and early 1960s which did survive are already available for examination by members of the public at the Public Record Office, Ruskin Avenue, Kew, Richmond, Surrey, TW9 4DU. Files from 1967 onwards will be routinely released to the Public Record Office at the 30 year point.

Yours sincerely,

10 FEB 1999

Dear Section 40

Recently, your department sent one of our members,
Section 40 of Section 40 Kent, a listing of all UFO sightings
reported to the Ministry Of Defence during 1997.

One entry on that listing was for 8 March, 1997, at Hythe, Kent.
Would it be possible for you to forward to me a copy of that report,
of details of the time of the reported incident on that date, and the
exact location, with brief description of what was observed?

I would be most grateful for your co-operation regarding this part-
icular incident.

Would it also be possible for us to obtain copies of incidents that
are reported to the police, and in turn passed onto your department?
I know from Section 40 of Quest Publications that this was
done in the past.

Thanking you for you time and attention regarding this matter.

Yours Sincerely

Dear

Section 40 [Redacted]

Section 40 [Redacted] has asked me to reply to your letter of 17 August.

You say that you believe the enclosure forwarded with your letter is a fake and ask for advice on how to deal with it. As the document appears to have been unsolicited, I can only suggest that you treat it as you would any other unsolicited item of correspondence.

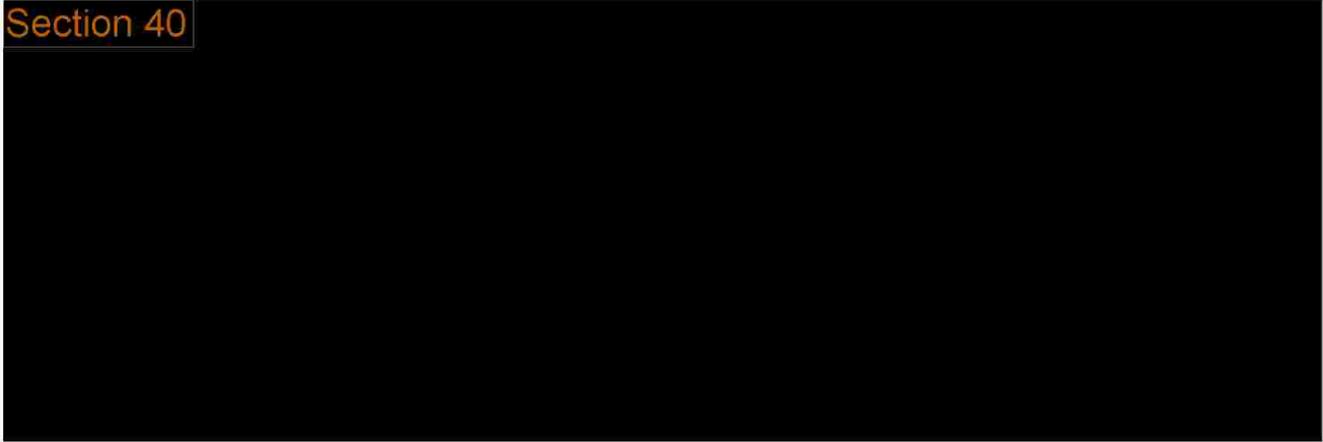

You also ask about how to respond to telephone calls. Most telephone companies offer an advisory service on how to deal with unwanted callers and you may therefore find it helpful to talk with the organisation providing your own facility.

Finally, if you or anyone you know feels threatened in any way by unsolicited mail or telephone calls you may also find it helpful to talk about your concerns with your local police force.

Yours sincerely,

17 August, 1998.

Dear Section 40

I am writing to you with regard to the enclosed letter that I received this morning. As you can see it is from someone claiming to be an RAF Wing Commander. It is obvious that the letter is a fake, which I feel makes the matter more serious, as it shows that there is someone posing as a member of Her Majesty's Forces, of which I understand can be considered an offence.

The reason I am sending this letter to you, is to make you aware that indeed there could well be someone posing as a member of the Royal Air Force. Should I discover who this is, what action do you suggest I take, if this person should send similar letters or makes telephone calls to either Section 40 or myself? Do you think it appropriate for me to report the matter to the local police, or report to you, should the identity of the person be discovered? I do know that through my dealings with the U.S. Airforce in the past, they take a very serious and dim view of persons impersonating personnel from their branch of the armed services.

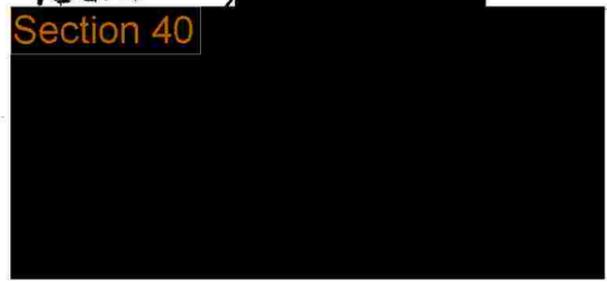

Should this letter be from a genuine member of the RAF, imparting official information, then surely that is an offence within the constraints of the Official Secrets Act.

I await your reply with interest.

Yours Sir

Section 40

1st August 1997

As a scheduled first hand warning, you are no longer permitted to carry on investigations into the supposed triangular-shaped object that was seen over Burmarsh, Kent.

The report of this unidentified craft by Section 40 on the 10th March 1997 (which was received by researchers at Section 40) was made at haste. She had actually seen a Rapid Response military aircraft, but as to new developments, I am not permitted to release details on its structure. The "disc like" shape Section 40 saw attached to the rear of the aircraft was a distance radar, but yet again due to new developments I can only be vague about its description and function.

May I state, therefore, this is not Official Denial. Your co-operation into this matter is vital for the security of military intelligence. You should now, therefore, proceed to leave this mistake for Section 40 to realise and forget. Other reports have come through from Dymchurch of a similar supposed UFO. These reports were acknowledged by us and the relevant people were told the situation.

From our obvious co-operation, we would appreciate yours. This matter, as we both know is also causing "emotional stress" for certain individuals, and should only strengthen the need to pass this case by as solved.

Once again this is a Conditional Warning.

Yours Sincerely,

Section 40

Dear **Section 40**

1. Thank you for your letter of 14 January which you sent again on 2 February. Your letter of 15 January addressed to the Home Secretary, which you repeated on 1 February, has been passed to MOD for reply.

2. The extent of the MOD's interest in the alleged events of 8 March last year have been fully explained to you in previous correspondence and, as we have already stated, the Home Office have confirmed that no security incident occurred at the former Home Secretary's home in Kent.

3. As my letter of 3 July made clear, the copy of the report you submitted to the Home Secretary with your undated letter in June last year was passed to the Ministry of Defence.

Yours sincerely

Section 40

REF:- D/sec(AS)/64/3 BURMARSH SIGHTING/Rt Hon MICHAEL HOWARD MP.

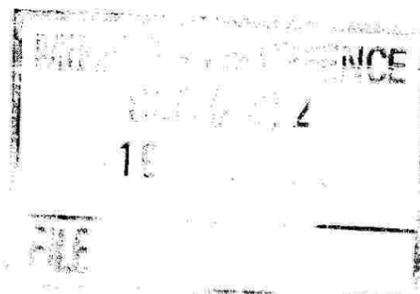

Dear Section 40

You may remember that in July, last year (1997), I was in contact with your department, regarding the sighting of a UFO in the vicinity of the Rt Hon Michael Howard MP residence during the early hours of 8 March, 1997. Your department recieved (I was led to believe), two copies of the report, one from the Home Office, and one from Chief Inspector Section 40 of Kent County Constabulary.

I am now writing to you regarding this sighting again, in the hope that your department has re-considered their position with regard to this sighting, as I think I stated to your department last year, our investigators will not give up on this matter.

We know have correspondence, from Kent County Constabulary which confirms that there was a security incident at the residence of Rt Hon Michael Howard MP, around the date of the UFO sighting. Not only that we were contacted by a member of the security contingent who was on duty on the night in question, who has stated that the unidentified object was directly over the residence of Mr. Howard.

East Kent Euro MP Mark Watts, brought the matter before the European Parliament, on 23 May, 1997, and I have been in contact with Mr Watts' office, and he has promised to look further into the matter.

In your letter of 3 July, 1997, you state that to date no UFO sighting has revealed evidence of being a threat to National Security, however it is quite obvious, even to a blind man, that this particular incident carries very serious security implications.

How can an unidentified aerial craft fly so close, or even over the residence of a Senior Cabinet Minister, and no one raise so much as an eyebrow? As far as **Section 40**'s concerned the object seen is unidentified, which in our books DOES NOT MEAN that it is an Alien space craft. With it therefore being unidentified, then surely because of its near presence to such an important Government person who held the position of Home Secretary, this must surely be one of the most serious breaches of security that one could ever imagine, as the object in question was unidentified, and therefore by not knowing what it was, should surely raise questions as to its true identity. (Unless of course someone in Government already knows?). The object could just as easily have been a helicopter carrying a terrorist.

Because of the response that we have received from the Kent County Constabulary, it is quite obvious that there was a security incident, yet in your letter of 3 July, 1997, you state that MOD Air Defence Staff confirmed that there was no unauthorized incursion of the UK Air Defence Region on 8 March. Does that mean the incursion was of an authorized nature, and therefore you know what the UFO was? You also state in the same letter that the Home Office confirmed that no security incident occurred in the home of the former Home Secretary. This is at odds with what Kent County Constabulary has stated. How do you account for this?

Also in July of last year, a **Section 40** from Sutton Coldfield, West Midlands contacted your department by fax, to ask what it knew of the UFO incident near/over the residence of the former Home Secretary? Your department told him that it knew nothing of this incident. Yet it had already received a full report that had been sent to the current Home Secretary the Rt Hon Jack Straw MP, and details (and possibly another copy of the report), from Chief Insp **Section 40** of Kent County Constabulary. How can this be explained? You yourself admitted to me, that both the Home Office and Kent County Constabulary had contacted your department regarding this incident, yet it was felt that it was necessary to lie to an inquirer into this matter.

I await your reply with interest.

Yours Sincerely

Ref No 0938 /1998

Date 13 FEB 1998

The Secretary of State at HOME OFFICE has received the attached letter from a member of the public. It has not been acknowledged by this office.

Please send a reply on behalf of the Minister concerned. All Ministers attach importance to such letters being answered promptly, your reply should therefore be sent **within 20 working days** of the date of this minute. If, exceptionally, this should prove impossible an interim reply should be sent within the same timescale.

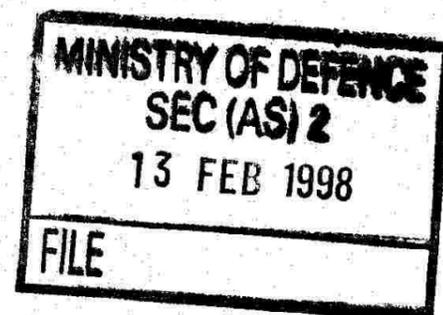

A new Open Government Code of Practice on Access to Government Information came into force on in January 1997. All replies to members of the public must be in accordance with the procedures set out in the Code. A full explanation of the Code of Practice is contained in DCI(Gen) 48/97; further information is available from DOMD on extension **Section 40**

Under the Citizens' Charter, Departments are now required to keep records of their performance. All branches and Agencies are required to keep information on the number of **requests for information which refer to the Code of Practice** including details of the correspondent and the nature and date of the reply. In addition, the Department is required to provide a record of the total number of letters from members of the public and provide statistics (which may be used on a valid sample) of its performance in providing replies within their published targets.

As part of our monitoring procedure, random spot checks on the accuracy of your branch records on correspondence will be performed throughout the year.

Dear Section 40

Thankyou for your communication dated 29 July.

Yes you are correct in your assumption that your reply was rather disappointing. However there are a few things that I should like to point out, in the hope that you can give me some kind of constructive reply.

In your letter you state that "the Ministry Of Defence has only a limited interest in "UFO" - related issues and, within the terms of this remit, I am satisfied that you were provided with the facts of the case". Well despite not receiving any facts what so ever from your department, I am puzzled by you comment regarding the MODs' role in the "UFO"-related issues. If this is so, can you please explain to me, why on documents that are available for all to see at the Public Records Office, from the MOD, they have a distribution list. Just who are DI55 and DSTI? Why should they receive copies of "UFO"- related issues?

Now onto Section 40 correspondence. In her letter she states in paragraph two the followings:- "The MOD examines any reports of UFOs, solely to establish whether what was seen might have some defence significance."

"no UFO sightings has revealed such evidence."

"no attempt is made to identify the precise nature of each reported incident..."

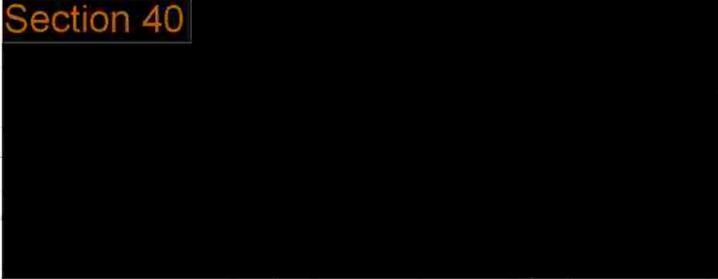

The MOD examine but they don't identify, because they're sure that if they did divert resources to a study, everything would be explained. As they have no role or expertise in UFOs, one has to question the validity of any statement that the MOD makes on the subject. Not exactly reassuring to think that if an enemy aircraft looked disc-like or triangular they would dismiss its violation of UK airspace as UFO phenomena...no further action required!

Also in my original letter to the Home Secretary, not once did I mention ETs, yet **Section 40** says that the MOD remains open-minded on the ET theory regarding UFO sightings. It seems like the MOD is very keen to keep that side of the question very much on the agenda, not that I suspect that (AS)2A has knowledge of ETs, more likely that it clouds the central issue regarding the origin of what in some cases is clearly a structured craft...hardly the "alleged phenomena" to which **Section 40** refers to in paragraph 3.

Perhaps you could possibly clear this matter up once and for all, and please explain to me why **Section 40** letter, totally contradicts itself.

Thanking you for your time in dealing with this matter.

De res

As you know, the Secretary of State for Defence's Special Adviser, Alasdair McGowan, has forwarded your letter of 8th July to Secretariat (Air Staff).

I am sorry you were not happy with **Section 40** response to your letter to the Home Secretary. In view of the comments you have made to Mr McGowan I have reviewed the correspondence and the way your letter was handled. As you know, the Ministry of Defence has only a limited interest in 'UFO'-related issues and, within the terms of this remit, I am satisfied that you were provided with the facts of the case. There really is nothing further to say.

I am sorry to send what I know will be a disappointing reply.

Yours sincerely

Section 40

14th July 1997

Dear Section 40

Thank you for your letter of 8th July.

I appreciate that you have already been in correspondence with Secretariat (Air Staff) but, given that this subject does not directly fall within my responsibilities at the MOD, I have passed your letter back to them, as they are the appropriate branch within the Ministry of Defence to deal with this topic.

Yours sincerely,

Section 40

A D MCGOWAN

Replied

OUR REF
16/97

Section 40

Mr Alistair Mc Gowan,
Ministry Of Defence,
Main Building,
Whitehall,
London,
SW1A 2HB.

8 July, 1997.

Dear Mr Mc Gowan,

I am writing to you regarding a UFO sighting report that was sent to the current Home Secretary (Rt Hon Jack Straw MP). This report regarded the sighting of a reported "Unidentified craft", seen near and possibly above the residence of the former Home Secretary (Rt Hon Michael Howard), on 8 March, 1997.

I have received a reply from **Section 40** of Secretariat (Air Staff) 2a1, of which I was not happy with.

In her letter of 3 July, she states: "MOD Air Defence Staff have confirmed that there is no evidence to suggest an unauthorized incursion of the UK Air Defence Region on 8 March". However at least twelve witnesses observed an "Unidentified craft", at six different locations. All describe seeing the same or similar type object. Can we then conclude in respect of the MOD Air Defence Staff reply, that all these people were seeing something that wasn't there?

The "Unidentified craft", was seen at Lydd at 02:10 and 03:00 hrs/Burmarsh between 03:05/03:07 hrs/Lymene (Mr Howards' property), at 03:08 hrs/Ashford at 03:10 hrs/Smeeth at 03:20 hrs/Aldinston at 03:30 hrs. This object was flying around these areas for about one and a half hours, and yet we are expected to believe that Air Defence Staff, did not observe this event on radar?

It should not be forgotten that on the night of March 30/31 1990, when two Belgian F-16 aircraft, were in pursuit of an "Unidentified craft" which came within six minutes of British airspace. And once again the British public were led to believe that the MOD knew nothing of the events of that night. It is a known fact that Belgium is a member of NATO, and that all other NATO member countries are informed of any "uncorrelated" targets, tracked on radar by other Countries, and that they have launched intercept aircraft. So for the MOD not to have known of the events that night, they must have been asleep.

In the letter and document that was sent to the Home Secretary, was also a petition that was signed by concerned members of the public who felt that there was a very serious matter regarding security, with regard to the "Unidentified craft" being seen near the Rt Hon Michael Howards' residence (Burmash one and half mile SE/Aldington two miles NW). Can you please tell me what has happened to this petition?

With regard to the "Unidentified craft" being seen over Rt Hon Howards' residence. This was observed by a Fire Brigade crew, who must have been on the track (road) leading to his property, as you cannot see the above mentioned property from the main road (B2067), because the wood blocks the view. So what was the fire crew doing near the Rt Hon Michael Howards' property at that time of the morning? Again I quote from **Section 40** letter of 3 July, she states:- "The Home Office have confirmed that no security incident occurred at the home of the former Home Secretary on this date". So what were the fire crew doing there? Are we expected to believe that the fire crew were lying? What could they possibly gain from doing so?

I wonder if you have read the report that was passed onto the MOD, by the Home Office? I understand that Chief Inspector **Section 40** of the Operations Centre, at the Kent County Constabulary Headquarters, has also forwarded a copy of the report/correspondence to the MOD. Should you have read this report, I would be very interested in your comments. Like other concerned residents of Kent, I feel that this incident does pose the possibility of a security risk, if not of a Defence issue.

I await your reply with interest, and thank you for taking the time in looking into this matter.

Section 40

Section 40

Air Secretariat (Air Staff) 2A1
 Ministry Of Defence,
 Main Buildings,
 Whitehall,
 London,
 SE1A 2HB.

1st July, 1997.

Dear Section 40

I am writing to you, as I understand that a letter, and a report regarding a UFO sighting in the Burmarsh/Lymene area of Kent, which was sent by myself to the Home Secretary, was passed on to you by his department.

As you may be aware, the said sighting of the "Unidentified craft", was also reportedly seen over the former Home Secretary's (Michael Howard), residence. I will not go into detail as to the alleged witnesses who claimed to have seen it over Mr. Howards' home, (and if you have read the report you will know who they are), but just to say that we are now very close to finding the two fire officers. Incidentally this is not the only fire crew to see something unusual over the Shepway area of Kent. It has come to my notice that a fire crew whilst out on a call at approximately 04:00 hrs, over this past weekend saw a very brightly lit "Unidentified object" over the roof tops of houses.

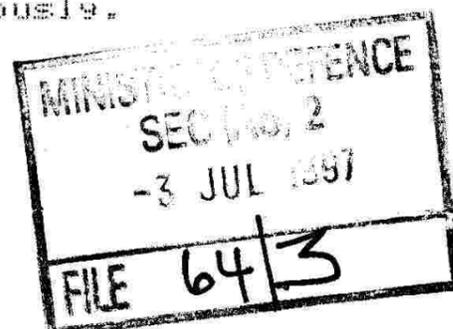

With regard to the Burmarsh sighting, as stated in the report and letter to the Home Secretary the Rt Hon Jack Straw, MP., in this particular case there is a very serious matter of security. As this involved the "Unidentified craft" not being just near the former Home Secretary's residence, but also possibly over the grounds of his property. I would very much like to know your reaction to this particular incident, or that of your superiors?

As I understand from the Home Office, the report was transferred to your department on the 9th of June, so I wonder what action has been taken by the Ministry Of Defence, regarding this matter, and why your department has not contacted me regarding same? If you would wish me to, I will keep you informed of the investigation as it progresses. I should also point out that the said "Unidentified craft" was also seen at the following places and times:- Lydd 02:10 hrs./Lydd 03:00 hrs./Ashford 03:10 hrs./Smeeth 03:20 hrs./Aldington 03:30 hrs. These sightings were all on the same night, as the Burmarsh/Lymene sighting's, and all describe the same object. I also enclose another completed form which should be attached to the report you already have.

I await your reply with interest, however on this occasion can you not please send out your usual standard reply that is normally sent, but a proper serious reply, as I am sure you will agree this is a very serious matter, and demands to be treated seriously.

Yours Sincerely,

Section 40

Section 40

FIELD INVESTIGATION REPORT FORM

Date Of Sighting: 08th MARCH 1997

Time Of SIGHTING: 03:05 Hours.

Location Of Sighting: JUNCTION OF DONKEY STREET, WITH LOWER WALL ROAD,
BURMARSH, KENT.

If The Incident Was Reported To Another U F O Group What Was Their Conclusions:

N/A.

What Does The Witness Think The Object Could Have Been: THOUGHT THAT IT WAS POSSIBLY A STEALTH OF ADVANCED FUTURISTIC AIRCRAFT, BUT THEN FELT THIS WAS NOT POSSIBLE DUE TO OBJECTS BEHAVIOUR, AND WAS A UFO.

How Do They Come To The Conclusion That They Have Reached:

BECAUSE OF THE OBSERVED OBJECTS BEHAVIOUR,

Has The Witness Suffered Any Effects Since The Incident: NO.

How Did The Witness Come Across During The Time You Spoke To Them Concerning

The Incident: WAS STILL VERY FRUSTRATED AT TIME OF INTERVIEW.

Has The Witness Ever Read Any Books On UFOs: ~~Yes~~/No

What Is The Witnesses Feeling On UFOs: HAS FOUND IT FASCINATING SINCE THE SIGHTING.

Has Any Other Member Of The Witness's Family Ever Seen A UFO: ~~Yes~~/No

Are There Any Other Comments Or Details Regarding This Incident That May Be Of Relevance:

(Use Separate Sheet If Needed)

Dear **Section 40**

1. Thank you for your recent letter addressed to the Secretary of State for the Home Department concerning an alleged "UFO sighting" near the residence of the former Home Secretary, Michael Howard. Your letter and the supporting papers have been passed to the Ministry of Defence and I have been asked to reply. You also wrote to the Chief Inspector of the Operations Centre, Kent County Constabulary, Maidstone. Chief Inspector **Section 40** has also forwarded his correspondence to me.

2. The Ministry of Defence examines any reports of "unidentified flying objects" it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the UK Air Defence Region might have been compromised by hostile or unauthorized foreign military activity. The integrity of the United Kingdom's airspace in peacetime is maintained through continuous policing of the UK Air Defence Region by the Royal Air Force which remains vigilant for any potential military threat. Unless there is evidence of such a threat, and to date no "unidentified flying object" sighting has revealed such evidence, no attempt is made to identify the precise nature of each reported incident. We believe that down to earth explanations could be found for these reports, such as aircraft lights or natural phenomena, if resources were diverted for this purpose. It would, however, be an inappropriate use of defence resources to provide this kind of aerial identification service.

3. The MOD has no expertise or role in respect of "UFO/flying saucer" matters or to the question of the existence or otherwise of extraterrestrial lifeforms, about which it remains open-minded. I should emphasize that to date the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

4. MOD Air Defence staff have confirmed that there is no evidence to suggest an unauthorized incursion of the UK Air Defence Region on 8 March. The Home Office has confirmed that no security incident occurred in the home of the former Home Secretary on this date as you allege in your letter.

5. I hope this explains the position.

Yours sincerely,

MINISTERIAL BUSINESS: TO BE GIVEN PRIORITY AT ALL TIMES

MINISTERIAL BUSINESS: TO BE GIVEN PRIORITY AT ALL TIMES

I should be grateful if you would arrange for a reply to be sent, on behalf of **Section 40** of State, to the attached correspondence from **Section 40** dated 11.6.97.... It must be placed on a Departmental registered file. An acknowledgement has not been sent. If another branch has responsibility for the subject, please pass it direct to them and inform this office.

2. The Secretary of State attaches importance to letters addressed to him being answered promptly. You should, therefore, send a reply within two weeks of the date of this minute. If, exceptionally, this is not possible an interim reply should be sent within the same timescale.

3. Whilst we make every effort to ensure that letters are only sent out for official reply when there is no obvious reason for a Minister to reply, you should confirm to your own satisfaction that a Ministerial reply would not be more appropriate. In particular if a Parliamentary Enquiry relating to the same issue is in hand, or where you believe the subject is particularly sensitive, you should consider carefully whether you need to draw this letter to the attention of the Parliamentary Branch and Private Office.

4. I am sending copies of this minute, with the attachment, to:
.....
.....
.....

5. The Open Government Code of Practice came into force on 4 April 1994. You should ensure that all replies to members of the public are provided in accordance with the procedures set out in the Code. For further information please see DCI(Gen) 48/97 or contact DOMD on **Section 40**

The Rt Hon Jack Straw MP
 Secretary Of State for The Home Department
 Home Office
 50 Queen Anne's Gate
 London
 SW1H 9AT

Dear Sir,

I would very much like to see a full public enquiry into the recent UFO incident of the 8th March that occurred at/near the residence of the former Home Secretary Michael Howard.

As Michael Howard is my MP, I tried to bring up the issue with Roger Gale MP, who was unable to help (see enclosures). I have turned to your Department as a last resort. I would also like to express my indignance and outrage at the way this incident has been ignored.

I have enclosed a full report and a completed petition which should demonstrate that there is some public concern relating to this issue.

I would be grateful to you, if you would raise this issue as a Parliamentary Question, something to the effect:-

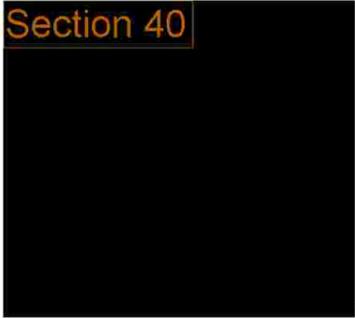

"To ask The Right Hon. Member for Fokestone and Hythe (i) was he in his Sherway Residence during the early hours of 8th March, 1997? (ii) what was the nature of the security incident at his Sherway Residence during the early hours of 8th March, 1997?; and if he will make a statement."

I should also like to point out, that many others including myself do feel that there is a very serious matter of security involving this particular incident. It is also felt that it is quite inconceivable that the Government continue to deny or even acknowledge the existence of UFOs, in spite of all the evidence, such as CIA/NSA/FBI records which have been released over the years in the United States, and of course the MOD records now available for inspection at the Public Records Office. If the Government continue to maintain that there are no serious problems concerning UFOs, then why the records, and Departmental records?

I await your reply with interest.

The Honourable Roger Gale MP
House of Commons
London
SW1A 0AA

Dear Sir,

I have been reading extracts from a book on the subject of UFOs called "Open Skies-Closed Minds" by a Mr Nick Pope. I found the material quite incredible, especially coming from a civil servant in The Ministry of Defence.

What I find quite inconceivable is that the government continue to deny or even acknowledge the existence of UFOs in spite of all the evidence.

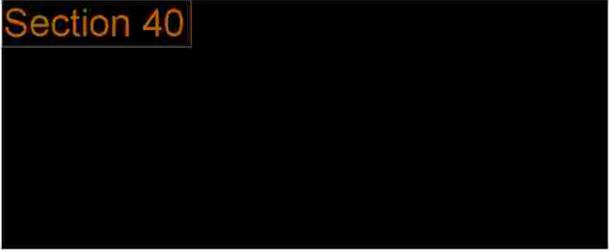

For The Ministry of Defence to claim that incidents such as that at Rendlesham Forest in 1980 are of no defence significance is totally outrageous and I feel this policy needs to be reversed.

It would not be a good idea for me to approach my own MP, Michael Howard on this, as I understand he had an experience of his own (see enclosure). Nevertheless, I feel that this particular incident is a grave matter of security.

I hope you will consider raising these issues in Parliament.

Yours Sincerely

Dear Section 40

Thank you for your letter of 25th May which has been received in our office during Mr Gale's absence.

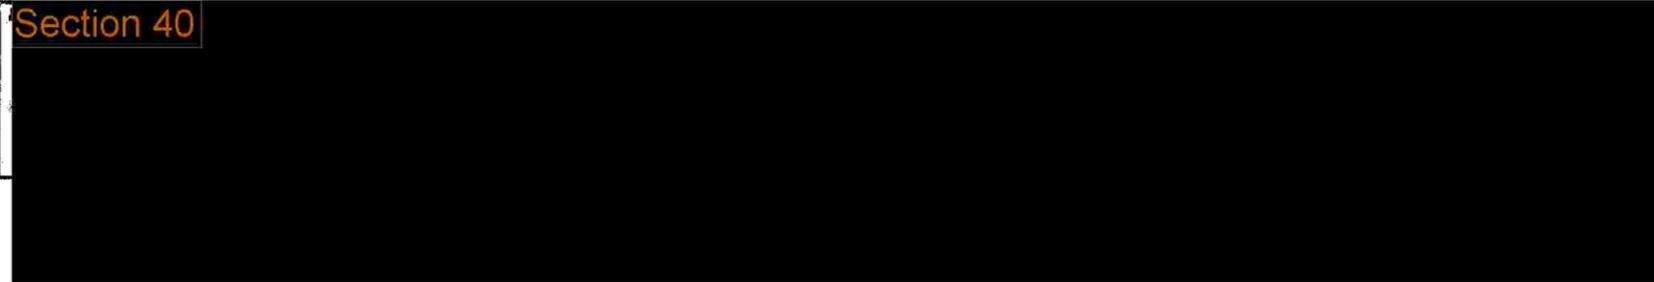

There is a very strict Parliamentary convention and Members of Parliament do not deal with each other's constituents' enquiries and we would normally send your correspondence on to Michael Howard for attention. However, as you do not seem to want to contact Mr Howard we are returning this to you.

With my best wishes
Yours sincerely

Date of observation: 08/03/97. Time: 03:00 hrs

Locality of observation: DONKEY ST. BURMASH, WEST HYTHE.

How long was the object visible: 1 minute

Please describe the weather conditions if possible: cloudy. cold.

Position of Sun/Moon in relation to object seen: N/A.

Please try and describe the object seen as best as you can: TRIANGULAR/ELONGATED.
Size about 2 planes in length.

Was the object brighter than the background sky: Yes.

If so was it brighter than the Sun/Moon/Headlights: Lights bright Diamond faceted effect / tin foil-like.

Was the object observed through binoculars/telescope: N/A.

Try to give an approximation of the objects size: About size on two large passenger planes in length.

How did you happen to notice the object: Saw the lights in front of car to the left.

Where were you and what were you doing at the time: Driving home after dropping of friends.

Please try and estimate the distance of the object: About 3-400 metres.

Are there any Airports/Military/Governmental facilities in the area of your observation:

Army Ranges Newby.

Have you ever seen anything else which you would describe as unusual: N/A

(If yes please give details on a separate sheet of paper)

Please draw a rough sketch of the area and of the object observed on the reverse of this form.

Have you reported the incident to anyone else (if so who and when): N/A.

Please enclose any photographs/video which will be returned if requested. N/A.

Do you object to us using your name with regard to this report: No.

Thanking you for your co-operation in this incident.

BURMARSH SIGHTING WITNESS STATEMENT

"It was very early in the morning, I think it was about three o'clock. I was driving back from dropping some friends off and I was coming down the road and I felt, I said afterwards to other people since, that I felt really weird. I was really looking over my shoulder on the way home. I was a bit scared, a weird feeling anyway.

And I saw something in front of me, and thought "Oh my God what the hell is it?", and sort of slowed down because I thought it was coming at me, and it stopped in a field in front of me. Probably 3 to 400 yards away, and I slowed down looking at it. It was just this huge triangle thing, which was a lot bigger than an aeroplane, but there is no way that I could have mistaken it for an aeroplane. or anything like that.

It had lights all around the outside, and this disc attached to the back, and a big light on the front. I pulled up to stop, and as I did it shot off. Literally shot off. I thought "Oh God what is this? This is really, really scary." And it stopped again, sort of another 500 yards away from me, and it did that four times. It just shot further and further away, but stopped four times, sort of moved for about 5-6 seconds, stopped for 2 sec's, then moved again for another 5-6 seconds and so on. The object was moving Westwards., and all the time it was making this weird humming sound. There was no other noise, like an aircraft engine.

It was really peculiar, it was, I wouldn't say shiny, but looked more sort of tin foily, sort of shimmery. It was shiny in places, and not in others. I just don't know what it was, it was so weird. The lights were really bright, a very bright one at the front, and when it shot off, I saw a light in each corner, which were white in colour. The ones around the outside were a sort of yellow-white, and there was also a circle of light in the middle, of the same colour as the outside ones.

When I first saw it, the point was facing me, but when it shot off it sort of..... I don't know, it must have swiveld, but I don't remember it swivelling, because I could see it side on then, and I could see underneath as it shot off, and there was this circle of lights.

I probably got a good look at it literally for a matter of seconds, and then it flicked off, and then stopped for a few seconds, and then it flicked off again and so on. I would say no more than 25 seconds, if that. I saw it for quite a long time in the distance, because I saw all these lights, and thought they were just lights. It wasn't until I got closer that I thought "Bloody hell, what is that?" So maybe I saw it for a lot longer that I thought.

It wasn't something like you see on television, like the futuristic planes,

well you can always tell that they are planes. Where as this was not like that. I was really frightened by it, and I'm not stupid. I don't believe in anything like that (UFO's). This is not something I've ever seen before or like something we would have built. It was just too weird, too odd, and the strange shimmer effect. It looked like an object suspended, had no wobble or anything like that. And when it moved off it was like a fluid movement, it was really odd. There was no slowing down or speeding up during each movement, like when you flip a coin or stone across the water.

The object was like an equilateral triangle, about double the size of an airliner, maybe as big as a football field. It wasn't very thick, but seemed thin along the edges, but sort of mounding in the middle. As I said there was this humming sound, like the sound you hear when you stand under overhead power cables. When I first heard the noise I thought it was the car engine playing up, and put my foot on the accelerator, for a second or two, but the noise was still there, and it was then that I realised the sound was coming from the object.

When the object finally disappeared, I kept looking around in the sky, thinking "Oh God where has it gone?" Looking for lights, anything, even aircraft lights and it was then that I noticed there were no stars visible.

All the time I had the feeling of the hairs standing up on the back of my neck, and I was convinced I had someone in the car with me. I felt really scared, as I drove home. I think I arrived home about twenty past three, maybe half-past three, I don't remember. But I woke everyone up and told them what I had seen and had a drink to calm me down. I was really sh

UFO is sighted over the marsh!

By Sarah Hall

SHEPWAY has once again become the centre of a wave of suspected UFO sightings.

Three people contacted the *Herald* this week after a strange object was seen looming in the sky over the Romney Marsh area in the early hours of last Saturday morning.

Sophie Wadleigh, 25, of Shepherds walk, Hythe

was so peculiar, it all felt really odd and I heard this humming noise.

"As I looked across the field I saw a large triangular 'space-ship' stop in a field directly in front of her, as she drove home through Donkey Street in New Romney at just after 3am on Saturday morning.

Shocked Sophie said: "It was so peculiar, it all felt really odd and I heard this humming noise. "As I looked across the field I saw a large triangular shaped flying craft hovering about 300 metres off the ground. "It had a large dome at one end and a lot of bright lights around the sides and looked quite shiny — I really had no idea what it

was and just sat in the car looking at it.

"After a few seconds it shot off leaving in a flash of light, travelling about 500m across the field and stopping again.

"It did this four times and then flew into the distance and I watched until it was out of sight.

"I have talked to friends since who have said that it was probably an aeroplane or an advanced Stealth bomber — but I have never seen anything like it before."

And it would seem the strange object was also spotted by two men as they returned home from a night out.

Ji Lane, 23, and Christopher Lee, 27, from Lathe Farm in New Romney were just locking up when they spotted a mysterious shape in the field opposite.

Mr Lane said: "It was crazy — I was getting a drink in the kitchen when I saw these strange lights in the sky just over the field across the road from our house.

"I wasn't sure what they were as they weren't moving so I called Chris and we both watched this weird floating object.

"We could only just make it out as we were quite far away, but when we ran outside to get a better look it had shot into the distance."

Silent

Mr Lee added: "If it was an aeroplane of some sort you would have expected there to have been loads of noise but this was silent.

"Also it was a lot longer than a plane and moved incredibly quickly — I have no idea what it was and we were both left speechless."

Both descriptions of the UFO fit those researched by the Shepway based UFOMEK monitoring group — who have collated files on reported UFO sightings in the area.

According to UFOMEK strange objects seen in the sky are usually described by 'spotters' as triangular disc-like objects with a

finish almost like a diamond.

These objects are also said to be capable of staying completely still and then shooting off at incredible speeds, normally after a dramatic flash in the air.

Local expert and UFOMEK assistant coordinator, Chris Rolfe from Hill Road, Folkestone said: "I am really not at all surprised at the descriptions given about the flying objects — these flying triangles have been spotted all over the country.

Myth

"The earliest record we have of such a sighting was in 1973, when a group of boys at the Duke of York's school in Dover spotted the triangular shaped UFO.

"We don't know what they are but the humming noise rules out the Stealth bomber myth as they make no noise at all.

"The really peculiar thing about this sighting is that we thought something might happen as much of Folkestone experienced a power cut last week — an occurrence which often happens before or after a sighting."

Mr Rolfe also believes the military know all about the mysterious craft spotted in the sky.

He claims that after several UFO sightings RAF and NATO aircraft have been seen patrolling the area.

He said: "We believe the military know a lot more than they are letting on about these sightings.

"For example a couple who reported a UFO in Thanet also told of military activity in Minnis Bay and numerous other people have seen RAF planes patrolling sighting spots.

"We don't know what these objects are at this moment in time and unfortunately can only record them as Unidentifiable Flying Objects."

•Anyone wanting to report a UFO can contact Chris Rolfe at UFOMEK on (01303) 254774.

(LOCAL PRESS)

FOLKESTONE HERALD

13th MARCH, 1997.

Spaceships, aliens and the Home Sec

UFO'S spotted over Shepway could have been looking for Home Secretary, Michael Howard, experts have warned.

Following reports of mystery aircraft sightings in New Romney and Burmarsh in last week's *Herald*, Chris Rolfe, co-ordinator of UFOMEK, has highlighted the closeness of the sightings to the Shepway MP's home near the old Lympne Castle ruins.

And he fears that the position of the sightings is more than just coincidence.

Mr Rolfe cautioned: "It would seem the UFO was totally disinterested in Sophie, the girl who reported it and watched it for quite a long time.

By Sarah Hall

"This certainly makes it seem like it had a purpose and has left me wondering if it's purpose had something to do with Mr Howard."

However Mr Rolfe was amazed to learn that Mr Howard's party agent knew all about the UFO.

He said: "I phoned Mr Howard's party agent in Folkestone and asked whether Mr Howard had seen anything strange I was immediately asked if I meant the UFO.

"The story in last

week's *Herald* only said Donkey Street as the sight of the spotting.

"Donkey Street is a very long road and the report did not state which end the UFO was seen at - so it seems very odd that those close to Mr Howard already knew that it was near his house."

And now Mr Rolfe and UFOMEK would like to see some questions answered.

"I would like to know whether anyone spotted any strange men poking about around the area afterwards or whether Mr Howard's security system was activated in any way.

"The whole story is creating a lot of interest all over England and when

you think of the implications it is quite easy to see why.

"I would love to know what the Government think of a strange aircraft being spotted near to the home of one of its senior cabinet ministers."

Sophie Wadleigh, of Shepherds Walk, Hythe, who saw the large object in the sky while driving home in the early hours of Saturday, March 8 said: "The UFO I saw was a large triangular shaped craft with bright lights running all round it's edge - it was above the field which lays directly opposite the turn off to Donkey Street in Burmarsh.

"When you have seen something like that you have to ask yourself why was it there - and maybe the Home secretary was the reason."

When the *Herald* contacted Mr Howard's office he was unavailable for comment.

through her window, and when she 76381.

Extract from The Folkestone Herald; 20.3.97

CONCLUSIONS

- A:- Whilst we do not pretend to know what it was that was observed, we think we can make some suggestions as to what it wasn't.
- (1): AIRCRAFT:- No normal aircraft looks like this object, or even performs the way that this observed object did.
- (2): HELICOPTER:- A helicopter can hover, however the sheer size of the observed object rules this out, and the noise from a helicopter would have been horrendous given the height of the observed object.
- (3): STEALTH TECHNOLOGY:- There have been suggestions that the object observed was a Stealth bomber. Firstly, there are only 15 of these aircraft in the USAF inventory and they have only become on a fully operational status in April of this year (1997), according to our sources.
- Because of the sheer cost of the B-2 Stealth bomber (said to be approximately 22 million per aircraft), would the USAF risk flying the aircraft over European Countries?
- So far as we know the B-2 has only appeared twice in Europe, both times during International Airshows, at Paris, France in 1995, and again at the 1996 Farnborough Airshow.
- The B-2 bomber cannot hover, and makes a tremendous amount of noise, and the shape of the aircraft in no way resembles a triangle. The object observed had many lights on its base, which is something that the Stealth bomber does not have. If the B-2 had the amount of lights that this object had, it would not be Stealth.
- (4): BALLOON:- It has been suggested that the object observed have been a new generation of balloon. This could be a possibility, but again the size of the object which the main witness describes as being about the size of a field, or two passenger planes end to end, rules this out as a possible explanation, until such time as hard evidence becomes available.
- (5): HALLUCINATION:- It is felt that this could not be a possible explanation for the sightings, as we feel it to be impossible for five different witnesses at three different locations (Donkey St, Burmarsh/Lower Wall Rd, Burmarsh/Aldersate Lane Lymene), to experience the same hallucination. Also information has come to light that other witnesses saw the same or similar triangle object at Lydd, and Aldington.
- (6): TEMPERATURE INVERSION:- Due to not having the appropriate data, we cannot say for sure if this could be the answer. However we feel confident that this is not the explanation.

(7): ASTRONOMICAL:- The old chestnut, ie the Planet Venus. This explanation may sound ludicrous, but the M.O.D. and R.A.F. along with the U.S. Air Force, have often come up with this explanation to try and explain sightings of UFO's. However on this occasion it was cloudy/overcast with no stars visible. So unless Venus has the ability to sprout wings and come down and fly several hundred feet in the air below cloud, we think it is safe to assume that this is not the answer, and the Planet Venus was hidden by the Sun's glare to be visible, and will not be fully visible again around June/July (1997). There were no reports of any bright meteors being seen.

B:- The main witness has been fully co-operative throughout the entire investigation, with both ourselves and other persons. We have offered her the opportunity to withdraw her statement on more than one occasion, and she has declined to do so. Stating that she is only reporting what she saw, and believes to be the truth, on what she has seen.

There are also at least four other witnesses in the immediate vicinity, as well as several witnesses to the same or similar object at the town of Lydd (which is approx nine and a half miles South West of the Burmarsh area), at about 02:50/02:55 hours, and at the village of Aldington (which is approx 4 miles North West of the Burmarsh area), at about 03:30 hours. Taking into consideration that the object seen at Lydd and Aldington, is the same one observed in the Burmarsh/Lymene area (the location of Michael Howards residence is approx one and a half miles North West of location of the main witness sightings), we believe that the sequence of events regarding the objects track (movements) could be as follows:-

- 1):- Lydd, at approx 02:50/02:55 hrs.
- 2):- In field opposite Great Lath Farm, Donkey Street, Burmarsh. At 03:00 hrs by Section 40 and Section 40. Approx 10 miles from Lydd.
- 3):- In field opposite with Donkey Street, and Lower Wall Road, Burmarsh. At 03:00/03:05 hrs approx, by Section 40. Approx 1 mile from Great Lath Farm.
- 4):- Above residence of the then Home Secretary Michael Howard, in Aldersate Lane, Lymene. At some time between 03:05/03:10 hrs by two Firemen? Approx 1 and half miles from Lower Wall Rd/Donkey St.
- 5):- At Aldington, at approx 03:30 hrs. Approx 2 and half miles from Howards' residence.

C:- With regard to the sightings at Lydd, and Aldington, we are awaiting full reports on these from an independent source.

The two firemen who are rumoured to have seen the object at Michael Howards' residence have not been easy to track down. However if there is any truth to the report, then the two firemen must have been at Mr. Howards' residence in an official capacity, as it is about quarter a mile from the main road (B2067), that runs through the village of Lyme. You cannot see Mr. Howards' residence from the B2067, as the wood (Hill Hurst/Aldersate), blocks the view, which we feel rules out the idea that the two firemen were off duty and driving along the main road. Therefore we believe that they must have either been approaching Mr. Howards' residence, or had arrived when they saw the object. Until the two firemen come forward we cannot know the full facts. All efforts to track them down have been so far met with failure.

D:- We now come to the object being sighted over the residence of Mr. Michael Howard (the then Home Secretary of the British Government). Taking into account the above regarding the two firemen who had reported that they had seen the object above Mr. Howards' residence, to a freelance reporter, it could be that the Security Personnel assigned to the said residence saw the object coming towards them from the Donkey Street/Lower Wall Road (Burmars), area to the South/South-East, and thinking that it was an aircraft of some description, or indeed a helicopter hit the panic button, which could explain why the two firemen were there.

Indeed it would be interesting to know if Mr. Howards was in residence at the time of the incident? Also it would be very interesting to know what the security personnel made of the object when they realised that it could in no way be an aircraft or helicopter, none of which they were familiar with? It seems logical to assume that the local Police were contacted, in fact they would probably have arrived at the said residence in answer to the security alert. But who else would have arrived on the scene? Indeed once it was realised that they were not dealing with a normal every day object, who would they have contacted? Would the M.O.D. have been contacted? It is obvious that a full report would have been submitted to persons at a higher level, but how high? The then Prime Minister John Major?

This brings to question the security issue in this incident. For years the Ministry Of Defence, the Royal Air Force, and indeed the British Government, have always stated that UFOs were not a defence issue (the term most frequently used is: "of no defence significance"), and were certainly of no security risk! Yet here we have an object which is unassessable, flying around British airspace, and also entering what could be termed as restricted airspace, as it passes over the residence of the then Home Secretary. If that cannot be classed as a potential security risk, let alone then it seems that the powers that be, do not even have their own senior Cabinet Ministers interests and personal safety at the forefront when it comes to UNIDENTIFIED air traffic! Is it not time for the whole matter of what the British government know about UFOs, (especially with regard to incidence of this nature), to come clean, and stop pussy footing around, telling the British public that there is nothing to the UFO problem? As this case demonstrates, it is time for a change in the way that the situation regarding UFOs are dealt with, and a better understanding between the Ministry Of Defence, the R.A.F. and the Government and the British people, being developed.

E:- FINAL CONCLUSION

With regard to the whole incident during the early hours of Saturday, 8 March, 1997, the degree of risk can only be one of UNASSESSABLE. The cause of the incident: UNASSESSABLE.
